## Report on Senate Bill to Be Submitted in Two Sections.

### ITS PASSAGE WILL BE URGED

Engineering Features and Financial Arrangements to Be Considered Separately-A Few Amendments to the Bill Will Be Suggested.

The District Commissioners yesterday again discussed the report to be submitted to the Senate Committee for the District of Columbia in regard to the union station and terminal plans. It was determined to present the report in two sections, one covering the engineering features of the plans and one relating to the financial arrangements.

This action is rendered necessary by the urgency felt by the members of the Senate Committee to have the bill reported upon at as early a date as possible. Therefore, the Commissioners will temperate submit to the committee their preliminary report upon the engineering features of the station, tunnel and viaducts. This report will cover about twothirds of the bill, and the remaining sections will be reserved for further consideration in a report to be submitted

#### Will Favor Adoption of Bill,

The Engineer Commissioner has not yet received all the data necessary to make up the report upon the finencial sections of the bill. This data is being assembled of the bill. This data is being assembled by the railrond a mpanies, and will be submitted to the Commissioners within a shape of a man, to the front of the auto-
